

active music innovative experienced
Listener · Composer · Researcher · Collaborator

Connecting technology with the people it serves (B.A. Digital Culture).

sEEG Sonification Toolkit v8.3 – translating intracranial EEG into navigable sound. “Impressive and very interesting.” – Teunis van Beelen, creator of EDFbrowser.

sEEG Sonification

Inventing a framework for human tempo (provisional patent in preparation).

Relative Tempo Derivation (RTD) – biomarker-to-tempo mapping rooted in just-intonation ratios.

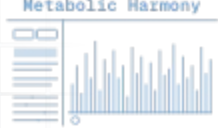

PATENT
PENDING

Composer exploring new ways of using harmony.

Metabolic Harmony – an interactive web sonification that lets you hear the gut microbiome. 350 metabolic pathways rendered as harmonic ratios across 4,869 samples, with built-in comparison between healthy reference and Multiple Sclerosis states – built to make complex pathway data audible, and accessible to researchers and patients alike.

Metabolic Harmony

COMPOSITION, COACHING & PRODUCTION

Percussion Coach, Arranger & Educator	Casa Grande HS · Villago MS · Flux Indoor · 2013-2022
Six Arizona state championships with Casa Grande HS (2015-2020). Wrote and arranged original competitive percussion scores; integrated live sound – microphones, synths, samplers, mixing – for full production value. Private percussion instruction. Performer and section contributor with ASU World Drumline and The Academy Drum & Bugle Corps.	
Independent Composer & Arranger	Lifelong Practice
Self-directed creative and research practice. Original frameworks in harmonic theory, data sonification methodology, and audio tools. Collaborates across disciplines, managing creative input from multiple contributors to produce cohesive final work. Independently releases musical projects.	

EDUCATION & TRAINING

Bachelor of Arts, Digital Culture	Arizona State University · 2017
Arts, Media & Engineering. Technology integration, digital systems, human-computer interaction. Direct academic foundation for audio technology, signal processing, and interactive media research.	
Neurologic Music Therapy – Volunteer Observer	NMTSA · 2025 – Present
Observed clinical NMT sessions with detailed protocol notes. Direct exposure to therapeutic audio applications including rhythmic auditory stimulation in stroke gait rehabilitation.	

ADDITIONAL EXPERIENCE

Market Hand & Sales Partner	Bene Vivendo · 2023 – Present
Small-team operation working directly with the owner. Customer education, product presentation, sales, and community engagement at weekly farmers market. Hands-on experience in the rhythms of a founder-run business.	
Aircraft Security Check	Phoenix Sky Harbor · Current
Situational awareness and effective work under strenuous, time-sensitive conditions.	
Barback	Local bar · Phoenix, AZ
Fast-paced service environment. Team coordination, stock management, and customer-facing work in a high-volume setting.
